User Guide Guida d'Uso

EN - User Guide

Description

1Control Why is an universal remote control capable of copying more than 450 models of rolling-code remotes and all the fixed code remotes in the following frequency bands: from 433.0 MHz to 868.0 MHz, using the following modulations: AM and FM.

1Control Why has 4 buttons that can store 4 different remote controls even of different brands and frequencies. The complete and updated list of compatible remote controls is available on the website: www.1control.it/en/compatibilita

The maximum distance between 1Control Why and the automation to be controlled can vary according to the type of remote control copied. Typically this distance is between 20 and 40 meters.

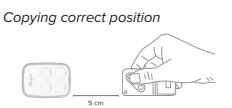

1Control Why uses a 3V CR2032 battery (already inserted). To replace the battery it is necessary to open the 1Control Why remote by unscrewing the screw on the back of the device. The 1Control Why remote keeps the copied remotes even when is powered off.

Further informations are available on the website: www.1control.it/en/why. For any technical problem write to support@1control.it

Advice for copying

For a correct copy of a remote control keep away from radio noise sources (such as cordless phones, video surveillance systems, electric motors, wireless systems in general, police stations, ...).

When copying a rolling code remote control, ensure that there are not installer locks set on the gate/garage control unit and the remote storage function must be correctly enabled. Check the receiver manual for the correct configuration.

Copying correct position

A BFT remote copy procedure

1. Press and keep pressed the button 1 and at the same time press 4 times the button 2 of 1Control Why remote. The red LED starts flashing. Release the buttons.

2. Press the button on the original remote until the red LED become fixed and then release it.

3. When the red LED flashes slowly two times, on the original remote control press at the same time the two buttons in diagonal as shown:

The LED will start flashing. While it's flashing, press the button of the original remote control that you want to copy.

4. When the green LED flashes quickly press the 1Control Why's button in which the remote control is to be stored.

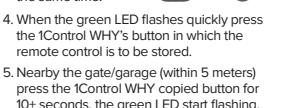

5. The copy is finished. Try opening the gate/garage, if it does not open, repeat the procedure from point 1. If by repeating the procedure is still not working, probably the receiver is locked.

NB: In order to copy a FAAC/GENIUS remote control, it is necessary to have a MASTER (original) remote control.

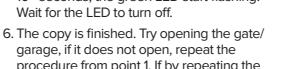

To recognize a Master remote control, press any button on the remote control and check the LED flashing mode:

- if it flashes briefly one time before becoming fixed on, it is a MASTER remote control.

- if it becomes fixed immediately, it is a SLAVE remote control and cannot be copied.

A BFT remote copy procedure

1. Press and keep pressed the button 1 and at the same time press 4 times the button 2 of 1Control Why remote. The red LED starts flashing. Release the buttons.

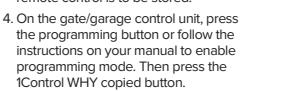

2. Press the button on the original remote for 3-4 seconds and then release it.

3. When the green LED flashes quickly press the 1Control Why's button in which the remote control is to be stored.

4. Nearby the gate/garage (within 5 meters) press the 1Control Why copied button for 10+ seconds, the green LED start flashing. Wait for the LED to turn off. If the green LED does not flash, it is necessary to proceed with the guide B.

5. The copy is finished. Try opening the gate/garage, if it does not open, repeat the procedure from point 1. If repeating the procedure does not open proceed with the guide B.

B Manual Rolling Code remote copy procedure

1. Press and keep pressed the button 1 and at the same time press 4 times the button 2 of 1Control Why remote. The red LED starts flashing. Release the buttons.

2. Press the button on the original remote for 3-4 seconds and then release it.

3. When the green LED flashes quickly press the 1Control Why's button in which the remote control is to be stored.

4. On the gate/garage control unit, press the programming button or follow the instructions on your manual to enable programming mode. Then press the 1Control Why copied button.

5. The copy is finished. Try opening the gate/garage, if it does not open, repeat the procedure from point 1.

C V2 or AVIDSEN remote copy procedure

TSC, TXC, TRC, HANDY, PHOENIX, PHOX 433 104251, 104250, 104250 OLD, 104250 RED, 104257, 104350, 654250

1. Press and keep pressed the button 1 and at the same time press 4 times the button 2 of 1Control Why remote. The red LED starts flashing. Release the buttons.

2. Press the button on the original remote for 3-4 seconds and then release it.

3. When the red LED flashes slowly twice, on the original remote control press the button again for 3-4 seconds and then release it.

4. When the green LED flashes quickly, press the 1Control Why's button on which the remote control is to be stored.

5. The copy is finished. Try opening the gate/garage, if it does not open, repeat the procedure from point 1.

D FAAC or GENIUS remote copy procedure

1. Press and keep pressed the button 1 and at the same time press 4 times the button 2 of 1Control Why remote. The red LED starts flashing. Release the buttons.

2. Press the button on the original remote for 3-4 seconds and then release it.

3. When the red LED flashes slowly twice, on the original remote control press the button again for 3-4 seconds and then release it.

4. When the green LED flashes quickly, press the 1Control Why's button on which the remote control is to be stored.

5. The copy is finished. Try opening the gate/garage, if it does not open, repeat the procedure from point 1.

E Automatic Rolling Code copy procedure

1. Press and keep pressed the button 1 and at the same time press 4 times the button 2 of 1Control Why remote. The red LED starts flashing. Release the buttons.

2. Press the button on the original remote for 3-4 seconds and then release it.

3. When the green LED flashes quickly, press the 1Control Why's button on which the remote control is to be stored.

4. Nearby the gate/garage (within 5 meters) press the 1Control Why copied button for 10+ seconds, the green LED start flashing. Wait for the LED to turn off. If the green LED does not flash, it is necessary to proceed with the guide B.

5. The copy is finished. Try opening the gate/garage, if it does not open, repeat the procedure from point 1. If repeating the procedure does not open proceed with the guide B.

F Fixed Code remote copy procedure

1. Press and keep pressed the button 1 and at the same time press 4 times the button 2 of 1Control Why remote. The red LED starts flashing. Release the buttons.

2. Press the button on the original remote for 3-4 seconds and then release it.

3. When the green LED flashes quickly, press the 1Control Why's button on which the remote control is to be stored.

4. On the gate/garage control unit, press the programming button or follow the instructions on your manual to enable programming mode. Then press the 1Control Why copied button.

5. The copy is finished. Try opening the gate/garage, if it does not open, repeat the procedure from point 1.

G V2 or AVIDSEN remote copy procedure

TSC, TXC, TRC, HANDY, PHOENIX, PHOX 433 104251, 104250, 104250 OLD, 104250 RED, 104257, 104350, 654250

1. Press and keep pressed the button 1 and at the same time press 4 times the button 2 of 1Control Why remote. The red LED starts flashing. Release the buttons.

2. Press the button on the original remote for 3-4 seconds and then release it.

3. When the red LED flashes slowly twice, on the original remote control press the button again for 3-4 seconds and then release it.

4. When the green LED flashes quickly, press the 1Control Why's button on which the remote control is to be stored.

5. The copy is finished. Try opening the gate/garage, if it does not open, repeat the procedure from point 1.

4. When the green LED flashes quickly, press the 1Control Why's button on which the remote control is to be stored.

5. The copy is finished. Try opening the gate/garage, if it does not open, repeat the procedure from point 1.

O Copia di un radiocomando FAAC o GENIUS

1. Press and keep pressed the button 1 and at the same time press 4 times the button 2 of 1Control Why remote. The red LED starts flashing. Release the buttons.

2. Press the button on the original remote for 3-4 seconds and then release it.

3. When the red LED flashes slowly twice, on the original remote control press the button again for 3-4 seconds and then release it.

4. When the green LED flashes quickly, press the 1Control Why's button on which the remote control is to be stored.

5. The copy is finished. Try opening the gate/garage, if it does not open, repeat the procedure from point 1.

P Copia di un radiocomando FAAC o GENIUS

1. Press and keep pressed the button 1 and at the same time press 4 times the button 2 of 1Control Why remote. The red LED starts flashing. Release the buttons.

2. Press the button on the original remote for 3-4 seconds and then release it.

3. When the red LED flashes slowly twice, on the original remote control press the button again for 3-4 seconds and then release it.

4. When the green LED flashes quickly, press the 1Control Why's button on which the remote control is to be stored.

5. The copy is finished. Try opening the gate/garage, if it does not open, repeat the procedure from point 1.

Q Copia di un radiocomando FAAC o GENIUS

1. Press and keep pressed the button 1 and at the same time press 4 times the button 2 of 1Control Why remote. The red LED starts flashing. Release the buttons.

2. Press the button on the original remote for 3-4 seconds and then release it.

3. When the red LED flashes slowly twice, on the original remote control press the button again for 3-4 seconds and then release it.

4. When the green LED flashes quickly, press the 1Control Why's button on which the remote control is to be stored.

5. The copy is finished. Try opening the gate/garage, if it does not open, repeat the procedure from point 1.

R Copia di un radiocomando FAAC o GENIUS

1. Press and keep pressed

sur la touche 2 de 1Control WHY. La DEL rouge commencera à clignoter. Relâchez les touches.

2. Appuyez sur le bouton de la télécommande d'origine pendant 3-4 secondes, puis relâchez-le.

3. Lorsque la DEL verte clignote rapidement, appuyez sur le bouton de 1Control WHY sur lequel vous voulez enregistrer la télécommande.

4. Près du portail / garage (à moins de 5 mètres) appuyez pendant +10 secondes sur le bouton de 1Control WHY copié, la DEL verte commencera à clignoter. Attendez ensuite que la DEL s'éteigne. Si la DEL Verte ne clignote pas, il est nécessaire de procéder à l'enregistrement manuel sur l'unité de contrôle (voir le manuel de l'unité de contrôle).

5. La copie est terminée. Essayez d'ouvrir le portail / garage, si cela ne s'ouvre pas répétez la procédure à partir du point 1. Si en répétant la procédure cela ne s'ouvre pas, procédez avec le guide B.

3. Wenn die rote LED zweimal langsam blinkt, auf der Original-Fernbedienung die versteckte Taste auf der Rückseite (falls vorliegend) oder die ersten zwei Tasten gleichzeitig drücken.
-

4. Wenn die grüne LED schnell blinkt, die Taste von 1Control WHY drücken, auf der die Fernbedienung gespeichert werden soll.

5. In der Nähe des Tors bzw. der Garage (innerhalb von 5 Metern) länger als 10 Sekunden die kopierte Taste von 1Control WHY drücken, die grüne LED beginnt zu blinken. Das Erlöschen der LED abwarten.

6. Die Kopie ist abgeschlossen. Versuchen, das Tor bzw. die Garage zu öffnen, falls es sich nicht öffnet, den Vorgang ab Punkt 1 wiederholen. Öffnet es sich auch nach einem erneuten Versuch nicht, ist wahrscheinlich das Steuergerät des Tors bzw. der Garage blockiert.

Die LED beginnt zu blinken. Während diese blinkt, die Taste der Original-Fernbedienung drücken, die man kopieren möchte.

4. Wenn die grüne LED schnell blinkt, die Taste von 1Control WHY drücken, auf der die Fernbedienung gespeichert werden soll.

5. In der Nähe des Tors bzw. der Garage (innerhalb von 5 Metern) länger als 10 Sekunden die kopierte Taste von 1Control WHY drücken, die grüne LED beginnt zu blinken. Das Erlöschen der LED abwarten.

NB: Um eine Fernbedienung FAAC oder GENIUS kopieren zu können, muss man über eine (Original-)Fernbedienung den Typs Master verfügen.
Um eine Master-Fernbedienung zu erkennen, eine beliebige Taste der Fernbedienung drücken und prüfen, auf welche Weise die LED blinkt:

- Wenn sie einmal kurz blinkt, bevor sie dauerhaft leuchtet, handelt es sich um einen MASTER

- Wenn sie sofort ständig leuchtet, handelt es sich um eine SLAVE-Fernbedienung und kann nicht kopiert werden.

F Copie d'une télécommande à Code Fixe

1. Appuyez sur la touche 1 et maintenez-la enfoncée et simultanément appuyez 4 fois sur la touche 2 de 1Control WHY. La DEL rouge commencera à clignoter. Relâchez les touches.

2. Appuyez sur le bouton de la télécommande d'origine pendant 3-4 secondes, puis relâchez-le.

3. Lorsque la DEL verte clignote rapidement, appuyez sur le bouton de 1Control WHY sur lequel vous voulez enregistrer la télécommande.

4. La copie est terminée. Essayez d'ouvrir le portail / garage, si cela ne s'ouvre pas répétez la procédure à partir du point 1.

B Kopie einer manuellen Rolling-Code-Fernbedienung

1. Die Taste 1 drücken und gedrückt halten und gleichzeitig 4 Mal die Taste 2 von 1Control WHY drücken. Die rote LED beginnt zu blinken. Die Tasten loslassen.
2. Die Taste der Original-Fernbedienung 3-4 Sekunden lang drücken und dann loslassen.
3. Wenn die grüne LED schnell blinkt, die Taste von 1Control WHY drücken, auf der die Fernbedienung gespeichert werden soll.
4. Auf dem Steuergerät des Tors bzw. der Garage die Programmertaste drücken oder die Anweisungen der entsprechenden Gebrauchsanleitung befolgen, um die Programmierung freizugeben. Anschließend die kopierte Taste des 1Control WHY drücken.

5. Die Kopie ist abgeschlossen. Versuchen, das Tor bzw. die Garage zu öffnen, falls es sich nicht öffnet, den Vorgang ab Punkt 1 wiederholen.

C Kopie einer Fernbedienung V2 oder AVIDSEN

TSC, TXC, TRC, HANDY, PHOENIX, PHOX 433, 104251, 104250, 104250 OLD, 104250 RED, 104257, 104350, 654250

1. Die Taste 1 drücken und gedrückt halten und gleichzeitig 4 Mal die Taste 2 von 1Control WHY drücken. Die rote LED beginnt zu blinken. Die Tasten loslassen.
2. Die Taste der Original-Fernbedienung 3-4 Sekunden lang drücken und dann loslassen.

3. Wenn die rote LED zweimal langsam blinkt, auf der Original-Fernbedienung erneut die Taste 3-4 Sekunden lang drücken und dann loslassen.

4. Wenn die grüne LED schnell blinkt, die Taste von 1Control WHY drücken, auf der die Fernbedienung gespeichert werden soll.

5. V2: in der Nähe des Tors bzw. der Garage (innerhalb von 5 Metern) länger als 10 Sekunden die kopierte Taste von 1Control WHY drücken, die grüne LED beginnt zu blinken. Das Erlöschen der LED abwarten. AVIDSEN: auf dem Steuergerät des Tors bzw. der Garage die Programmertaste drücken oder die Anweisungen der entsprechenden Gebrauchsanleitung befolgen, um die Programmierung freizugeben. Anschließend die kopierte Taste des 1Control WHY drücken.

6. Die Kopie ist abgeschlossen. Versuchen, das Tor bzw. die Garage zu öffnen, falls es sich nicht öffnet, den Vorgang ab Punkt 1 wiederholen. Öffnet es sich auch nach einem erneuten Versuch nicht, ist wahrscheinlich das Steuergerät des Tors bzw. der Garage blockiert.

E Kopie einer automatischen Rolling-Code-Fernbedienung

1. Die Taste 1 drücken und gedrückt halten und gleichzeitig 4 Mal die Taste 2 von 1Control WHY drücken. Die rote LED beginnt zu blinken. Die Tasten loslassen.
2. Die Taste der Original-Fernbedienung 3-4 Sekunden lang drücken und dann loslassen.

3. Wenn die grüne LED schnell blinkt, die Taste von 1Control WHY drücken, auf der die Fernbedienung gespeichert werden soll.

4. In der Nähe des Tors bzw. der Garage (innerhalb von 5 Metern) länger als 10 Sekunden die kopierte Taste von 1Control WHY drücken, die grüne LED beginnt zu blinken. Das Erlöschen der LED abwarten. Blinkt die grüne LED nicht, muss die Eintragung auf dem Steuergerät manuelle vorgenommen werden (siehe Anleitung des Steuergeräts).

5. Die Kopie ist abgeschlossen. Versuchen, das Tor bzw. die Garage zu öffnen, falls es sich nicht öffnet, den Vorgang ab Punkt 1 wiederholen. Öffnet es sich auch nach einem erneuten Versuch nicht, gemäß Anleitung B vorgehen.

F Kopie einer Fernbedienung mit fester Kodierung

1. Die Taste 1 drücken und gedrückt halten und gleichzeitig 4 Mal die Taste 2 von 1Control WHY drücken. Die rote LED beginnt zu blinken. Die Tasten loslassen.

2. Die Taste der Original-Fernbedienung 3-4 Sekunden lang drücken und dann loslassen.

3. Wenn die rote LED zweimal langsam blinkt, auf der Original-Fernbedienung erneut die Taste 3-4 Sekunden lang drücken und dann loslassen.

4. Wenn die grüne LED schnell blinkt, die Taste von 1Control WHY drücken, auf der die Fernbedienung gespeichert werden soll.

5. V2: in der Nähe des Tors bzw. der Garage (innerhalb von 5 Metern) länger als 10 Sekunden die kopierte Taste von 1Control WHY drücken, die grüne LED beginnt zu blinken. Das Erlöschen der LED abwarten.

6. Die Kopie ist abgeschlossen. Versuchen, das Tor bzw. die Garage zu öffnen, falls es sich nicht öffnet, den Vorgang ab Punkt 1 wiederholen. Öffnet es sich auch nach einem erneuten Versuch nicht, ist wahrscheinlich das Steuergerät des Tors bzw. der Garage blockiert.
